

ABOUT QXCI DEVICES

As of November 2004, the QXCI has not been manufactured, and therefore there are no current worldwide valid registrations or licenses for the QXCI.

As of 12 September 2017, Mandelay Kft. doesn't support the software of the QXCI device anymore. We strongly recommend upgrading your device to a newer one. For more information about our products can be found on our official website www.scio-eductor.com under "Products".

The QXCI has been replaced by the SCIO and QUEST9. The SCIO and QUEST9 are available to you at the Current Retail Price and have an update to its software every year. We recommend that you contact one of our Sales Representative, if you wish to upgrade from the QXCI to the SCIO or QUEST9, also see our Upgrade Policy for more information.

If you have any further questions, please contact one of our contracted World Brokers on www.scio-eductor.com under "Contacts/Sales representatives".
